Description

Aspiring Backend Developer and pre-final year student, motivated to work on building reliable and scalable backend systems. Quick learner, adaptable to new technologies, and eager to contribute to real-world projects.

Education

St. Joseph's College of Engineering, Chennai (2023 – 2027) **CGPA:** 9.06

B. Tech in Information Technology

Zion International Public School, Chennai (2022 – 2023) **12th:** 93.4%

Technical Skills

Languages: Java, C, Python, MySQL, MongoDB

Frameworks: Spring Boot, React (Basics)

Projects

Portfolio Website | Tech Stack: HTML, CSS, JavaScript **March 2025**

- Designed and developed a personal portfolio website to showcase projects and skills.
- Built fully responsive pages with clean UI and smooth navigation.

Expense Tracker | Tech Stack: React, Spring boot, MongoDB **June 2025 – July 2025**

- Developed a full-stack expense tracker to record, categorize, and analyze daily expenses.
- Built secure REST APIs with Spring Boot and integrated them with a React frontend.

Certifications

- Accenture Software Engineering Job Simulation - Forge
- Introduction to Frontend Development - Coursera
- Programming in Java – NPTEL
- Java Foundations – Oracle
- Database Management System – NPTEL

Achievements

- Solved 2000+ problems on SkillRack
- Solved 300+ problems on LeetCode
- Secured 1st place in CODE-QUEEN FEST, an intra-college coding competition organized by HOPE and SheCanCode.
- Won 1st place in the Debugging event at NEXAURA'25, held at New Prince Shri Bhavani College of Engineering and Technology. Secured 3rd place in a Code Analysis contest at NEXAURA'25
- Won 1st place in Hack Sync, an intra-college ideation and coding event organized by the CSE department and ACM student chapter.

Experience/Internship

KGE Technologies (UI Developer intern) **June 2025 - July 2025**

- Enhanced user experience by designing and implementing intuitive UI elements for web applications.
- Implemented responsive design principles ensuring consistent appearance across different screen sizes and resolutions.

Astraalis (Backend Developer) **July 2025 - Till Date**

- Currently contributing to the development of a Job Tracker application for managing job applications.
- Working on backend development using Go (Golang) with MongoDB for authentication and data handling.
